**Password Recovery**

**Security Question**

**Security Answer**

- **E-mail Address:** Practice Lab displays a warning if you have previously used an email address in the Practice Lab system.
- **User Name:** All user names in TaxSlayer Pro Online must be unique in all online platforms so User Name for Practice Lab cannot be used for Production. Practice Lab displays a warning if the user name has been created by another volunteer.
- **Password:** Must be alphanumeric containing at least 6 characters. Is case-sensitive. For the production software, the password must be at least 8 characters long and must contain alpha, numeric and at least one special character. These requirements are based on the trusted customer requirements issued by the IRS security summit.
- **Program Type:** Select AARP Tax-Aide from the drop-down list.
- **Site Identification Number (SIDN):** not required
- **Security Question:** Select a security question n from the list.
- **Security Answer:** Type the answer to your security question.
- **Click:** to Create Account
- **Login:** with User ID and password
